RESEARCH SUPPORT

Ongoing:

Title: Immunologic Determinants of Age-Related Macular Degeneration (AMD) Project-Continuation

Principal Investigator: Douglas A. Jabs, MD, MBA

Role: Research Manager (2021-Present)

Major Goal: The major goal of this project is to evaluate the roles of immunosenescence and systemic inflammation in the development of AMD.

Award: NIH NEI R01EY025093

Total award amount including indirect costs: \$1,833,904

Project dates: 09/01/2021-08/31/2025

Title: Johns Hopkins Institute for Clinical and Translational Research (ICTR)—UL Portion
Principal Investigator: Daniel E. Ford, MD, MPH
Role: Research Navigator, Trial Innovation Unit (TIU) (2021-Present)
Major Goal: The primary goal of the ICTR is to accelerate the improvement in the health of Maryland by utilizing team-driven science to translate basic discoveries into new intervention that optimize health promotion and the prevention, diagnosis, and treatment of disease.
Award: NIH NCATS UL1TR003098
Total award amount including indirect costs: \$59,820,410
Project dates: 05/31/2019-04/30/2024

Title: ADalimumab Vs. conventional ImmunoSupprESSION for Uveitis (ADVISE) Trial, Chairman's Office
Principal Investigator: Douglas A. Jabs, MD, MBA
Role: Research Manager, Chairman's Office (2019-Present)
Major Goal: The goal of this project is to evaluate the role of the anti-TNF monoclonal antibody adalimumab in the treatment of the uveitides by performing a comparative effectiveness trial versus conventional immunosuppression. This award supports the Chairman's Office cooperative agreement.
Award: NIH NEI UG1EY028096
Total award amount including indirect costs (2019-2023): \$682,437
Project dates: 09/30/2018-08/31/2023

Completed:

Title: Macular Edema Treatment Trials Associate with MUST (META-MUST) Chairman's Office
Principal Investigator: Douglas A. Jabs, MD, MBA
Role: Research Manager, Chairman's Office (2020-2022)
Major Goal: The major goal of this project was to address key issues in the treatment of uveitic macular edema with two clinical trials, POINT and MERIT. This award supports the Chairman's Office cooperative agreement.
Award: NIH NEI U10EY024526
Total award amount including indirect costs (2020-2022): \$283,358
Project dates: 09/30/2014-07/31/2022

Title: Developing classification criteria for the uveitides (SUN)
Principal Investigator: Douglas A. Jabs, MD, MBA
Role: Research Manager (2019-2022)
Major Goal: The goal of this project was to develop internationally accepted, scientifically valid, classification criteria for 25 of the most common uveitic diseases.
Award: NIH NEI R01EY026593
Total award amount including indirect costs (2019-2022): \$533,235
Project dates: 04/01/2016-03/31/2022

SERVICE TO THE ACADEMY

Suicide; Suicide clusters; Teen suicide; Suicide prevention; Mental health; Public health; Public mental health; Stigma; Community outreach and engagement; Child and adolescent development; Children and families; Life course perspectives; Language development; Education; Violent acts; Urban sociology; Demography.

RESEARCH SKILLS

Stakeholder engagement; Program management and administration; Formulating research questions; Qualitative research methodology: interviews and focus groups, qualitative data analysis; Quantitative data analysis: logistic regression; Systems-thinking; Portfolio management; Writing and editing; Transcribing.

PROFESSIONAL SKILLS

Project management and administration; Event planning; Onboarding, orientation, staff training, staff development; Fundraising and outreach; Public speaking; Customer service; Translating and interpreting (English/Spanish); Managing a team; Team-oriented; Collaborative; Community organizing; Stakeholder engagement; Detail-oriented.

TEACHING SKILLS

Mentorship, relationship-building; Supervisory skills, team-building skills; Performance evaluation; Lesson plan development; Virtual/remote content delivery; Personalized content delivery; Nominal Group Technique; Discussion facilitation; Management of small working groups; Lecturing.

TECHNICAL SKILLS

Advanced computer skills: IBM SPSS, QSR NVIVO, Stata, WordPress, Wix.com, Drupal, NEOGOV HR Software, MS Office Suite (Word, Excel, PowerPoint, Outlook), Zoom, Google Business Suite, Typing speed: 85 wpm.

PERSONAL STATEMENT

I am a public health researcher with a background in the social sciences. My research focuses on suicide and mental health, specifically, the socioenvironmental predictors and impact of suicidal ideation, suicide death, and suicide clusters within adolescent communities. With my interdisciplinary training and first-hand experience supporting a loved one through a suicidal period, I am committed to using evidence-based decision-making for translating research into action steps for preventing suicide.

In my professional role, I support a diverse team of researchers in management and outcomes of large international multicenter NIH-funded clinical trials. I collaborate with internal stakeholders and external research partners, including the Center Director, Principal Investigators, Clinic coordinators, Research Administration, and Grants and Contracting to track funds and monitor progress for sponsored projects.

My teaching style is personable and flexible. I employ a flipped classroom blended learning model for virtual content delivery. I encourage student-to-student engagement and workshopping of concepts, whereby I am a guide for critical thinking and creative problem-solving. I aim to empower students and resume clients with a resource toolkit for systems-level thinking, developing innovative solutions to complex problems, challenging biases and perceptions, and practicing self-affirming skills that they need to work well in interdisciplinary, collaborative groups, confidently marketing their roles and experiences.
